Bridging the Years

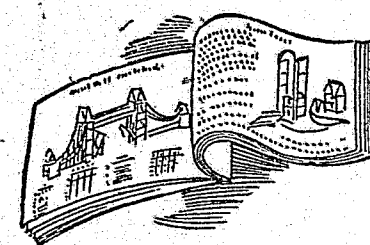

The difference between the working models of a bridge, aeroplane or Ferris wheel that any boy can make of Meccano, and a real railroad bridge or machine is one of degree only.

MECCANO

To the boy's imagination it is the same locomotive thundering across the draw, or the same wheel revolving with its merry-makers. In a few years he may be building gigantic steel structures by the same principles he learns today in his play with Meccano.

Get that Boy of Yours a Set of Meccano

It's the most amusing and fascinating toy in the world. Its girders, bolts and wheels of brass and nicked steel, to be seen at this store, can be modeled into a hundred different playthings by any boy. Always new, always delightful. You'll enjoy it, too. Drop in and see the book of designs. Sets from \$1.00 up.

REWICKING Made Easy

EASY wicking is only one of the many improvements that make the new Perfection Oil Heater (Triangle trade mark) superior to any oil heater ever made before.

Wick and carrier are in one. Just turn up the old wick, slip it out and drop another in place.

This New Model Perfection Heater is smokeless, odorless and economical.

The shape of the font, wide and shallow, allows the oil to pass readily up the wick and insures an even, glowing heat even when the font is almost empty. The font holds more than a gallon of oil and an indicator shows the amount of fuel left at a glance.

There is no smoke or smell with a Perfection. The automatic-locking flame-spreader prevents smoking. No gallery to unscrew, or catch oil and dust.

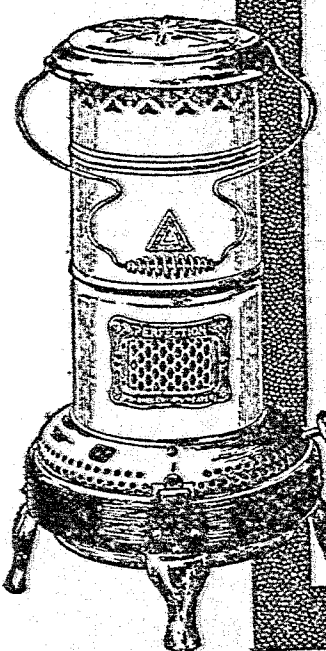

Made with vitreous blue enamel or plain steel drums. Ornamental, inexpensive, lasts for years. Easily cleaned and moved about.

WHY YOU SHOULD USE CHILTON PAINT

It is a Pure Linseed Oil Paint. It contains no Benzene or Naptha in any form. Its record for durability is not surpassed. It has been used here in Norway for 20 years. It covers more, covers better and wears longer than many other advertised brands.

It really costs less than paints sold for less money, for it must be thinned with Linseed Oil or Turpentine before using. Try it this year and you will always demand it.

Oxford County Baptist History.

Old History Gives Account of Denomination in This Vicinity up to 70 Years Ago
FIRST INSTALLMENT

In the year 1844, Rev. Joshua Millet finished writing a history of the Baptist denomination and Baptist churches in Maine. The history is now being reissued. It gives such statistics of the various organizations as were compiled for that year. The book was issued to the public in 1845, being copyrighted by the author and printed by Chas. Day & Co. at Portland.

A copy of this book has recently come into possession of an ADVERTISER reader, who furnishes us some extracts for publication.

Baptist Beginnings in Maine.

The history opens with a description of Maine in the time of the first settlers, and of the intolerance shown by the established Congregational order. The first organized Baptist work in Maine was done by a few settlers at Kittery, who were affiliated with that denomination, and in 1682 formed a body which became a branch of the Baptist church in Boston. The church was self sustaining, the members moved away, and it was disbanded within a few years. Prosecutions by the colonial government, for violations of the law regarding the kind of religious doctrine that might be preached, are said to have helped along the collapse of that church.

About 1764, Rev. Ezekiah Smith of Haverhill, Mass., began the next Baptist work in Maine, establishing a mission at Berwick. From that grew a church which was organized in 1768 with eight male and four female members. It was at first a branch of the church at Haverhill. It grew so that in a few years it separated from the mother church and united with another branch, located 20 to 25 miles distant at Madbury, N. H., in the organization of a separate church. William Hooper was ordained pastor in 1776, the first Baptist clergyman ordained in Maine, the ceremony taking place at Berwick.

Rev. Ezekiah Smith did missionary work at many places beside Berwick and organized there under his guidance as was at Madbury, N. H., and several others were organized in that region within the next few years, and from them the denomination spread over the District of Maine, till it was found over the greater part of this territory at the time of the separation from Massachusetts in 1820.

This spread of the denomination was greatly accelerated by notable missionary work throughout the Kennebec valley in the early years of the nineteenth century.

Mr. Millet's history [gives individual accounts of the local churches. For this vicinity, those accounts are abbreviated as follows:

Southwestern Oxford County.
The exact beginnings of the Fryeburg church seem to be unknown, but Elder Z. Richardson was its pastor in 1787. It flourished for a time, but disappeared as a church in 1805. It was in that year reported to York Association as having 83 members. The history says: "By the circumstance that the churches, Cornish, Limerick and Limington, received large additions in 1806, of which no account is reported, we conclude that the church at Fryeburg was disbanded, and most of the members united in those churches. Elder Richardson became a member in the church in Cornish."

The church in Cornish, which seems to have had considerable support from people in neighboring Oxford county towns, was organized about the same time as that at Fryeburg and was at first a branch of the church at Sanford. It flourished for a time and then declined and finally disappeared after the burning of the church and contents in 1834. By the efforts of a special missionary committee from York Association it was revived in 1855.

As early as 1787 or 1788, Rev. Zebadiah Richardson of Fryeburg and Rev. John Chadbourn of Cornish began Baptist missionary work in Hiram. John Watson and Lucy his wife, were baptized and joined the church at Cornish. Although the distance was 11 or 12 miles, Watson, Osgood and their wives, on foot and in bad roads, punctually attended the meetings in Cornish. A separate church was organized at Hiram in 1809 with 18 members. At the time Mr. Millet wrote his history it was still a small organization, obliged to meet in houses, schoolhouses, the townhouses, etc., never having been able to erect a church building. The total membership is given as 44, and the number in 1843 as 18.

The church at Denmark was the first Baptist church in Southwestern Oxford county, being organized in 1804, as the fruits of the labors of Rev. Tristram Jordan, who became its first pastor, and continued as such for some years. It barely maintained an existence till 1884, when Larkin L. Jordan, one of its members, began to preach and was appointed by a license to go before the church in 1895 and was "useful to the church." The church was enlarged by a revival in 1839. Mr. Jordan was still pastor in 1843. The original membership was 32, total number 106, and 61 were reported in 1843.

On the Edge of Cumberland County.
Baptist sentiments were early manifested in Bridgton. Eld. Jordan of Denmark finally promoted the gathering of a church in 1807. Reuben Ball, the first pastor, took charge in 1812. Two churches are said to have sprung from this church, that at Harrison in 1827, and the one at Sweden in 1833. The membership numbered eight at organization and 225 total. The history says: "This church has had many trials, but has met them with patient endurance. Its present number is 57, who are in somewhat a tried state and without a pastor."

Hunting and Hunted.
The killing of 5180 deer in Maine, New Hampshire, Vermont and Massachusetts this fall cost the lives of 13 persons and more or less injuries to 72 others. The deer season closed in Massachusetts a week ago and Tuesday in Vermont, but hunters in Maine and New Hampshire have about two weeks left in which to track their quarry.

Maine, as usual, leads the Northern New England states in the number of deer hunting fatalities. Of the 11 persons killed in that state, four were mistaken for deer and shot by the hunters, six were killed by accidental discharge of their own weapons, and a little girl was accidentally shot by an elder brother who was cleaning a rifle. More than 60 persons were wounded in gunning accidents.

A Valuable Suggestion
Important to Everyone

It is now conceded by physicians that the kidneys should have more attention as they control the other organs to a remarkable degree and do a tremendous amount of work in removing the poisons and waste matter from the system by filtering the blood.

During the winter months especially, when we live an indoor life, the kidneys should receive some assistance when needed, as we take less exercise, drink less water and often eat more rich heavy food, thereby forcing the kidneys to do more work than Nature intended. Evidence of kidney trouble, such as lame back, annoying bladder troubles, smarting or burning, brick-dust or sediment in the urine, may be followed by a weak or irregular heart action, warns you that your kidneys require help immediately to avoid more serious trouble.

Many physicians claim that an herbal medicine containing no minerals or opiates has the most healing influence. An ideal herbal compound that has had most remarkable success as a kidney and bladder remedy is Dr. Kilmer's Swamp-Root.

You may receive a sample bottle of Swamp-Root by Parcels Post. Address Dr. Kilmer & Co., Binghamton, N. Y., and enclose ten cents; also mention the Norway Weekly Oxford County Advertiser.

Changeable Climate

IS A CONSTANT THREAT TO THE HEALTH OF THE PEOPLE.

Dr. Hartman, of Columbus, Ohio, discusses an important health topic. He says:

Yes, it is the climate, not the germs, that we have to fear in this country. The germs are present, to be sure, and are of some significance, in diagnosis. Climate, a changeable climate, is the true cause of disease. The atmospheric pressure varies, the humidity of the atmosphere changes. Every day the temperature rises and falls. All this presents to the body very great trials to adjust to.

The area of high pressure forms in the northwest. Moves rapidly south-east, subjecting millions of our population to its influence. The result is, thousands upon thousands of people catch cold. A small per cent. of these thousands do not get well of their cold. It goes into pneumonia, or chronic catarrh, or bronchitis, or laryngitis, or pleurisy.

Now, what I am getting at is this. These climatic changes are inevitable. No one can prevent them. The very best we can do is to prepare for them, defend ourselves against them. Good health is the best preventive.

The very best. Vigorous health, with excess vitality, this is Nature's own preventive and protection.

We do not all have this, however. Some of us must have assistance. The assistance that I use for myself, would recommend for my friends to use, my neighbors and my countrymen, is Pe-ru-na. Keep Pe-ru-na in the house.

If the children indicate they are catching cold, give them Pe-ru-na. If the parents, the grandmother or grandfather, present those symptoms that are so well known which precede a cold, a few doses of Pe-ru-na and the deed is done.

Some people are very subject to colds. Others who have weak lungs and are timid about how winter weather will take Pe-ru-na off and on during the whole winter season. The plan is a good one. The medicine is inexpensive. It does no possible harm to the system. It keeps the appetite regular and keen. It assists digestion and helps the user through the inclement weather of winter.

WATERFORD.
Verdict for Defendant.
After deliberating on the case for three hours, the jury in the Superior court decided that the Waterford Packing Co. had made no promise to pay Henry Dennis of Portland a commission for selling a certain lot of corn. The jury accordingly brought in a verdict for the defendant. Judge Connolly declined to charge the jury on points raised by both attorneys and both Mr. Hinckley and Mr. Freeman took exceptions. It is thought that the case will go to the Law court.

Mr. Dennis of Portland sued the Waterford Packing Co. to recover \$500 which he claims is due him as a commission for handling the output of the defendant company. The plaintiff alleges that the canned corn output of the Waterford Packing Co. was put in his hands, as a broker, for him to sell to wholesalers and that it was represented as a fancy grade of corn.

He tried to sell it as such, but the wholesalers, after testing samples, refused to purchase because they said it was not fancy corn. Dennis claims that the sale was lost through no fault of his, but through the fault of the defendant company and that his commission is due him just as if he had succeeded in selling the corn as a fancy product, as they represented.

Mary Rounds was home for Thanksgiving from her school duties in Milton, Mass.

GILEAD.
Mrs. Etta O. Leighton.
Etta O., wife of Harry M. Leighton, passed away last Wednesday afternoon at the age of 84 years and 10 months.

She had been poorly for two years, but last spring grew worse, when with prompt treatment and care she rallied and seemed better, but the coming of fall her strength failed, and about six weeks ago she took her bed where she gradually failed until the end. Everything that medical skill or home care could do was done, but she died.

She was a sunny cheerful disposition, ever ready to do a kindness, and devoted to her home and family.

She leaves a heart-broken husband, who did all that the doctor could do for her, eight children, mother and four sisters, and a large circle of friends to mourn their loss.

Rev. J. H. Little of Bethel spoke words of comfort. Prayer was held at the home in Gilead. Funeral services were held at Union church, Shelburne, and she was laid at rest in the Wheeler cemetery. The flowers were beautiful which showed the high esteem in which she was held.

Sister "Wife and Mother"—H. M. Leighton. Harry with broken string with "Sister" Bessie, George Bissie, Kate Peabody, Hattie Anchor—Geo. E. Leighton.

Thirty-four pinks—Mrs. G. E. Leighton. Rounder—Mrs. and Mr. G. C. Leighton. Other floral offerings were received from Mr. and Mrs. East Jordan, James Simpson, Mr. and Mrs. E. B. Coffin, Mr. and Mrs. E. B. Coffin, Mr. and Mrs. John Leighton, Albert Farley, Mrs. Mary Dyer, Mrs. Grace Kendall and others whose names we failed to give.
